Values:
Justice, Reconciliation, Respect, Equity

This policy should be read in conjunction with the Relationships Policy of the College.

Policy:
All students at St Patrick’s College are encouraged to act in ways that acknowledge their respect for themselves, for others and for the rights of all in the community.

Context:
The College will develop ways to reinforce positive behaviours.

Students may be withdrawn from the classroom if their behaviour impedes the learning of others or endangers the well-being of others.

Parents will be informed about serious breaches of respect for self, others, or others’ rights.

Corporal punishment will not be used at the College.

Students, whose behaviour is contrary to the College ethos, may be asked to show cause as to why they should remain part of the community.
